

Biology Binder

We will be covering the following units. I would recommend having the following **8 large** and **13 small tabs** for your **binder**. I use plastic adhesive tabs and slide labels in. However, please feel free to use whichever type of tabs you have. You will be filing class notes, worksheets, activities, homework, and labs into your binders. You may also want to put some **white lined filler paper** at the end of your binder to use for homework or as scrap paper.

Please make a **cover** for your binder with the following information: Biology, First and Last Name, and Period.

Large Tab 1 = Introduction to Biology

Large Tab 2 = Biochemistry

Large Tab 3 = Cell Biology

- Cell Structure & Transport
- Bioenergetics
- Cell Growth & Division

Large Tab 4 = Genetics

- Molecular Genetics
- Mendelian Genetics
- Human Heredity

Large Tab 5 = Anatomy & Physiology

- Integumentary System, Skeletal System, & Muscular System
- Nervous System
- Circulatory & Excretory System
- Respiratory System
- Digestive System

Large Tab 6 = Evolution & Biodiversity

- Evolution
- Classification

Large Tab 7 = Ecology

Large Tab 8 = MCAS Review
