

Chapter 12: PATTERNS OF INHERITANCE

- ABO blood groups
- Albinism
- **Allele**
- **Codominance**
- Continuous variation
- Cross-fertilization
- Cross-pollination
- **Dihybrid cross**
- **Dominant**
- Epistasis
- **First filial (F₁) generation**
- **Gene**
- **Genotype**
- **Heterozygous**
- **Homozygous**
- Hybridization
- **Incomplete dominance**
- **Mendelian ratio**
- **Mendel's First Law of Heredity (Law of Segregation)**
- **Mendel's Second Law of Heredity (Law of Independent Assortment)**
- Modified ratio
- **Monohybrid cross**
- Pedigree
- **Phenotype**
- Pleiotropic
- Polygenic inheritance
- Punnett square
- **Recessive**
- Reciprocal crosses
- Rh blood group
- Rule of Addition **
- Rule of Multiplication (Product rule) **
- **Second filial (F₂) generation**
- Segregation
- Self-fertilization
- Testcross
- Trait
- True-breeding
