

Chapter 13: Chromosomes, Mapping, and Meiosis-Inheritance Connection

- **Amniocentesis**
- **Aneuploidy**
- **Autosome**
- **Barr body**
- **Centimorgan**
- **Chorionic villi sampling**
- **Chromosomal theory of inheritance**
- **Cystic fibrosis**
- **Dosage compensation**
- **Down Syndrome**
- **Genetic counseling**
- **Genetic mosaics**
- **Genomic imprinting**
- **Hemophilia**
- **Huntington's Disease**
- **Jacob Syndrome**
- **Karyotype**
- **Klinefelter syndrome**
- **Linked genes**
- **Maternal inheritance**
- **Monosomics**
- **Muscular Dystrophy (Duchenne)**
- **Nondisjunction**
- **Phenylketonuria**
- **Recombination frequency**
- **Sex chromosome**
- **Sex linked**
- **Sickle-cell anemia**
- **Single nucleotide polymorphisms (SNPs)**
- **Tay-Sachs Disease**
- **Three-point cross**
- **Turner Syndrome**
- **Trisomics**
- **X chromosome**
- **Y chromosome**
